26th January 2011

Dear Parents

On Friday 28th January the Mathematics Department is holding a booster session for a small number of Year 11 pupils. Your child is one of 15 pupils that have been selected to attend, as their Maths teacher strongly believes they could benefit from the extra assistance they can receive on this day.

This session is for selected pupils who we believe are capable of gaining a grade C in their Mathematics GCSE, but who are currently not consistently achieving this grade in lessons or internal tests. Students will work through real examination questions and exam style questions allowing them to gain confidence in answering these questions and also gaining knowledge of exam techniques needed for Maths GCSE. Recognising the terminology used in Maths exams and knowing the style of answer required will often gain the extra few marks needed in order to move up a grade boundary and obtain a C.

The session is based in PC4 and will run from 9 a.m. until 1 p.m. with a break. As this is Tutor Review Day there will be no catering facilities in school that day. Students will need to bring their own drink and refreshments for the break. We understand that pupils will need to leave the session in order to attend their tutor appointments.

Please can students come prepared with all their normal mathematical equipment as this will ensure that they are in the best position to get the most from this session.

If your child is unable to attend the Booster Session please can they speak to Mr Laws by Thursday 27th.

Yours sincerely

Mr B Laws
Mathematics Assistant Subject Leader
