Dear Parent/Carer,

## Re: Design & Technology Department – Important information

This year students will have one term of food technology and two terms of design & technology.

In food technology students will learn about nutrition and healthy eating, cook a range of dishes and create their own recipes.

In design and technology students will develop skills in using electric and hand tools, isometric drawing, computer aided design, electronics and 3D printing. Projects will be made using wood, metals, paper, card, plastics and textiles.

In terms of equipment, all students will need their basic pencil case contents, as well as coloured pencils and a black fine liner pen. For food technology they need to bring a labelled container to carry products home in. A 'Celebration' or 'Quality Street' type tin is ideal.

I am sure you appreciate that the materials required to teach Design & Technology as a hands-on practical subject are costly. In order to purchase all the materials required, we ask for a **£12** contribution towards the cost of materials and components used throughout the year. By requesting this early in the year it allows us to bulk buy materials and gain the largest discounts, which in turn keeps costs down and allows us to develop more exciting projects.

For food technology basic food items are included in our costing, but sometimes students will need to bring further ingredients to make their own dishes.

Please complete the form below and return it via your son/daughter to their Design & Technology teacher in a sealed envelope. You may send cash or cheque, or pay online. Please make cheques payable to Sandhurst School Private Account. The online payment facility will be available 24 hours from the date of this letter. Receipts will be issued on request.

Please also inform us of any food allergies.

If you have any queries, please do not hesitate to contact me at school.

Thank you for your support with this matter.

Yours sincerely,

**Mrs L Tudor**  
Design & Technology, Subject Leader
